

Gathered Floral

natural and elegant garden design florals

Welcome

Thank you for enquiring about using my services for your wedding florals.

I love to create natural looking garden designs and adore using roses, whimsical greenery, pockets of delicate textures and complimenting seasonal blooms.

My bouquets are loose and airy not tight balls. Ceremony backdrops and reception designs are unstructured and organic. I love incorporating candles, candle holders and using ceramic and glass vessels.

I am not a cookie cutter florist. At the quoting stage, I can't give you exact size dimensions of arrangements as my work is organic and freeflowing. If my natural garden design style appeals to you, please reach out!

Meet Catherine

My design aesthetic is natural, romantic and garden inspired. I love working with colour and texture and base my work on old garden inspired designs where the elements are effortlessly gathered together.

After spending 22 years in banking with roles in internal audit and operational risk management, I threw caution to the wind and left a reliable corporate job and forayed into small business. Armed with a Certificate III in Floristry and combined with undergrad and postgrad degrees in Business and Accounting, I hit the ground running and have been designing weddings for the past 10 years.

I'm happily married to my soul mate, a mum to 3 grown up children and nana to 2 grand kids. I have dalmation named Betty and I simply adore her.

I'm authentic, compassionate, empathetic and focussed. I passionately love creating wedding florals and carefully consider the placement of every bloom. Each colour, hue and tone is purposeful and conveys my heartfelt emotion. I'm not afraid to stand out or stand on my own. I'm resilient and have a never say never attitude.

I would love to meet you!

FRESH FLORALS

the full floral experience

Seasonal thoughtful blooms and foliages that look as if they grew in their space or were gathered straight from the garden.

From your vision board and inspiration images, I research the best florals to use based on seasonality and your colour palette.

I consider the placement of every element to create something truly unique. From the glassware, the linen, the candle styling and the type of vase or compote.

The benefits of using all fresh florals is the complimentary use of items in my hire inventory such as quality ceramic and metal compotes and vases, glass and ceramic candle holders, ceremony plinths, large urns and arbours. In its entirety, I can confidently bring your vision to life.

FAUX & FRESH FLORALS

an affordable collection option

Designing with both fresh and faux silk blooms is a new affordable range that I now offer. Faux florals have come a long way and definitely don't look like those plastic blooms that you might have seen at your grandmother's place. I offer this collection in the blush, nudes, soft pink and whites colour palettes.

Primarily for your ceremony designs such as the arch or arbour, floral towers, ground nests, pew ends and aisle ground designs.

This range is more affordable as it is available as a hire option only. You are more than welcome (and encouraged) to take the fresh florals out of the arrangements at the end of your reception.
